

granat-site-wine — Reviewer Quickstart

granat-site-wine — Reviewer Quickstart

⚠ **OUT OF SCOPE for Phase 1 independent code review.** This repository is a **Cone Red goodwill artefact**, delivered to the Customer as-is at the close of Phase 1. It is **not** one of the two in-scope repositories. Master review guide: granat-world/GRANAT/REVIEW_GUIDE.md.

This quickstart is provided so that a curious reviewer can run the project locally if they want — not because review is expected.

1. What this repository is

A single-page partner-facing narrative site with an embedded voice-to-choir demo, in the **wine-brown** visual direction (working name “CC” from the May 2026 design pipeline). Its sibling `granat-site-indigo` carries the same content in a periwinkle-indigo palette; the two deploy independently so stakeholders can A/B the visual direction. Palette: wine #1A0F0C ground · pomegranate-juice #A4123F · sun-warmed honey #E8B66A.

2. Requirements

Tool	Version
Node.js	≥ 18 (LTS)
npm	≥ 10
Browser	any modern

Time to running: ~1–2 minutes

3. Clone and run

```
git clone https://github.com/granat-world/granat-site-wine.git
cd granat-site-wine
cp .env.example .env
# Optional: set GRANAT_API_KEY in .env if you want the embedded voice demo
#           (Section 7) to call the upstream Granat voice API. Without it,
#           the page renders and animations work, but the voice demo fails.
npm install
npm run dev
# Open http://localhost:3000
```

The Express server serves the static site **and** proxies the voice-API calls (so the API key never reaches the browser).

4. What to look at

- `public/index.html` — single-page wine site (mobile-optimised)
- `public/future.html` — voice-fingerprint explainer landing
- `public/policy.html` — privacy

- **server.js** — Express static server + voice-API proxy + rate limiting (10 req/min/IP)
- **DEPLOY.md** — Timeweb App Platform deployment

5. Stack overview

- Node.js + Express
- express-rate-limit (rate limiting)
- multer (multipart upload handling)
- Static single-page site in public/

6. License

Proprietary. © 2026 Granat Music Artistic Talent Contracting L.L.C S.O.C. See LICENSE.

For the actual Phase 1 review pack, see [granat-world/GRANAT/REVIEW_GUIDE.md](#) — the master guide covering the in-scope repositories (GRANAT + reactjs-miniapp-granat), their SBOMs, security audits, and the 14 048-line platform documentation pack.
